PROJECTS

Quiz Management System

📅 aug 2023

- A quiz management system is a software application that allows users to create, manage, and administer quizzes or tests. It has two parts: an administrator dashboard and a user interface. The system can be used in schools, universities, and businesses to assess knowledge and skills of students or employees. Key features include quiz creation, time limits, grading options, reporting, and integration with other educational platforms.
- TOOL - : MS.NET Framework, ASP.NET Core MVC (Model View Controller) c-sharp
